

Meeting Notes – Final NLP Project

Topic: Final Assignment and Cross-Team Evaluation

Key Points

- A **small final assignment** will be given based on the dataset created.
- **Deadline:** To be confirmed, either **Friday** or **Sunday** (pending Mr. Ziser's confirmation).

Team Assignments

- Team 6 → Team 7
- Team 7 → Team 10
- Team 10 → Team 6

(Each team will evaluate another team's dataset.)

Task Details

- Check if **distractors from other teams** interfere with the **same segmented part** of the system prompt.
- **Each distractor** must be **linked to a specific system instruction**, *no general "target_system_instruction."*
- Determine whether the **target system instruction** is **actually broken** by the given distractor.

Next Steps

- Await further instructions and clarifications **via email**.
